SUBJECT INDEX

A

Acetylcholine, in treatment of allergic conditions, *30*
  mechanism, in heat allergy, *54*
Aerosolization, of drugs, new method for, *2, 50*
  of penicillin in bronchiectasis, *2*
Agranulocytosis, caused by thiouracil, *33*
Alkyloxytriazines, antagonistic effect of, on histamine, *35*
Allergic cholecystitis, in rabbits, *54*
  retinosis, *18*
  rhinitis, histamine-like substance in nasal secretions of, *53*
    intranasal calcium in treatment of, *31*
Allergy, irreversible type, in nontuberculous diseases of the chest, *4*
  of joints, *68*
Amino acids, effect on antibody production of, *72*
Aminophylline, antagonistic action on histamine of, *10*
  effect on intestinal tract of, *21*
Anaphylactic shock, histology of labyrinth in, *42*
  modification of, by benadryl, *47, 57*
  papaverine hydrochloride, in prevention of, *34*
  physiology of, *71*
  platelets in, *34, 46*
  pyribenzamine, effect on, *57*
Anaphylactoid reaction, following antityphoid injections, *24*
Anaphylaxis, influence of duration of sensitization in guinea pig, *70*
  passive, effects of immunization with histamine azoprotein on, *45*
  physiology of, in white rat, *57*
  rheumatic-fever-like lesions in, *46*
  tuberculin, as antigen in production of, *23, 45*
Angioneurotic edema, caused by inhalation of penicillin, treatment with benadryl of, *64*
Antibody production, effect of amino acids on, *72*
  by killed typhoid bacillus in saline, *48*
    oily vehicle, *48*
  in protein depleted rats, *72*
  influence of protein repletion in rats on, *60*
  pyridoxin deficiency in suppression of, *60*
Antisera, specific precipitation of one protein by antiserum of another, *12*
Antityphoid vaccine, as cause of fatal reaction, *24*
Asthma, atelectasis in, *3*
  benadryl in treatment of, *14*
  bronchoscopy in diagnosis of, *27*
  effect of military life in tropics on, *37*
  eosinophilic lung, as distinguished from, *3*
  ethylene disulfonate in treatment of, *1*
  in infancy, *38*
  in guinea pigs, *35*
Asthma—Cont'd
  lumbar puncture, in treatment of, *37*
  mites (acarina) as cause of, *61*
  periarteritis nodosa, eosinophilia, associated with, *1*
  prognosis of, *38*
Asthmatic reaction in respiratory tissue of ovarian teratoma, *2*
Atabrine, fatal reactions to, *56*
Atelectasis, diagnosis and treatment of, *3*
Atopic dermatitis, association of with cataracts, *53*
  pyribenzamine in treatment of, *51*
Atropine, effect on pulmonary pressor action of histamine, *35*

B

Basal metabolism, effect of histamine on, *12*
Beach apple, conjunctivitis, and dermatitis from, *52*
Benadryl, administration in humans of, *7*
  antagonistic action on histamine of, *34*
  antihistaminic properties of, *48*
  antihistaminic substance, *7*
  comparison with pyribenzamine in histamine and anaphylactic shock of, *57, 58*
  effect on urticaria, scleroderma and allied conditions of, *62*
    gastric acidity produced by histamine, *59*
    gastric secretion, *59*
    normal individuals, *58*
    persons with disturbances of autonomic nervous system, *58*
  in treatment of allergic diseases, *67*
    angioneurotic edema, *15, 16*
    bronchial asthma, *14*
    chronic and acute urticaria, *16*
    cold hypersensitiveness, *41*
    dermographism, *15, 16*
    erythema multiforme, *16*
    hay fever, *14*
    lichen urticatus, *16*
    Ménière's disease, *22*
    myalgia, *22*
    physical allergy of head, *22*
    urticaria, *15, 16*
    vasomotor rhinitis, *22*
  in trypsin shock, *71*
Benzidine, as cause of dermatitis, *5*
Boric acid ointment, death from, *17*
Bronchial asthma (*see* Asthma)
Bronchiectasis, incidence of, in allergic disease, *26*
  penicillin therapy in, *2, 37*
  streptomycin aerosol in treatment of, *25*
  sulfonamides in treatment of, *26*
Bronchoscopy, in asthma, *27*
Butanefrine, compared with epinephrine, *15*
  use of, in asthma, *15*
Butyn, ocular sensitivity to, *19*

C

Calcium, intranasal application of, *31*
Castor bean, allergenic proteins of, *47*
  sensitivity, *8*
Cataracts, association of, with atopic dermatitis, *53*
Cheilitis, due to penicillin, *29*
Chloroamide ointment, as protective against ivy dermatitis, *52*
Cold hypersensitiveness, treatment with benadryl of, *41*
Common cold, histamine-like substance in nasal secretions of, *53*
Conjunctivitis caused by beach apple, *52*
Contact dermatitis (*see* Dermatitis)
  quantitative tests, technique for performance of, *28*
Cottonseed, allergenic proteins of, *47*
Cough mixtures, effect of combining expectorants in, *51*
Cutaneous detergents, ether sulfonate compounds as, *5*

D

DDT, dermatitis resulting from exposure to, *63*
Dermatitis,
  caused by beach apple, *52*
    benzidine, *5*
    DDT, *63*
    penicillin ointment, *28*
    rubber, *18*
    filler of eyelash curlers, *16*
    synthetic resins, *4*
  exfoliative, caused by atabrine, *56*
  ocular, caused by penicillin, *51*
Dermographia, effect of pyribenzamine on, *63*
  penicillin therapy as cause of, *64*
Drug allergy, inhibition of, by feeding of sensitizing agent, *38*
  reactions, with thiamine chloride, *43*
Drugs, effect of various types on experimental asthma in guinea pigs, *35*

E

Egg-embryo vaccines, allergenic properties of, *65, 66*
Eosinophil lung, relationship to pulmonary acariasis of, *49*
Eosinophilia, silicosis and emphysema as cause of, *24*
Eosinophils, histological staining of, *12*
  new technique in counting of, *36*
Ephedrine, dosage in bronchial asthma, *26*
Epidermal sensitivity to penicillin, *63*
Epinephrine, combination with ascorbic acid, *23*
  death following inhalation of, *13*
  effect on histamine pressor action of, *23*
  Loeffler's syndrome, results of treatment with, *25*
Ether allergy, case report, *20*
Ether sulfonate, as cutaneous detergent, *5*
Ethylene disulfonate, treatment of bronchial asthma with, *1, 61*
  unacceptable for new and nonofficial remedies, *61*
Expectorants, effect of combination of, *51*
  volatile oils as, *50*

F

Feeding of sensitizing agent, inhibition of experimental drug allergy by, *38*
Fibrin, antigenic properties of, *58*
Filariasis, cutaneous test in, *33*
  immunologic studies in, *33, 55*
Fixed eruption, due to sulfathiazole, *29*
Folic acid, essential pan-hematopoietic factor, *67*
Forssman antibody, experimental purpura and pancreatic necrosis produced by, *72*

G

Gastrointestinal allergy, relief by aminophylline of, *21*
  tract, absorption of penicillin from, *6*

H

Hair dye as cause of death, *53*
Hapten-protein antigens, results of overtreatment with hapten on, *36*
Hay fever, benadryl in treatment of, *14*
  diminished vital capacity in, *50*
  dyspnea as symptom of, *50*
Headache, sodium nicotinate in treatment of, *57*
Heat allergy, mechanism of, *54*
Histaminase, effect on histamine induced activity in Heidenhain pouch of, *12*
  inhibitory effect on histamine of, *12*
Histamine, alkyloxytriazines, as antagonists of, *34, 35*
  azoprotein, immunization of guinea pigs with, *45*
  benadryl, antagonism to, *34*
    influence on, *43*
  counteraction by pyribenzamine, *71*
  effect on basal metabolism of, *12*
  intoxication, effects of immunization with histamine azoprotein on, *45*
  pyribenzamine, as antagonist of, *71*
  role in mechanism of heat allergy, *54*
  shock, comparison of benadryl and pyribenzamine in, *57*
  skin content in various dermatoses, *52*
    under influence of cold, *52*
Horse serum albumin, antigenicity of peptic proteolytic products of, *11*
  electrical processing and dialysis in detoxification of, *72*
House dust, allergenic nature of, *20*
  polysaccharide fraction of, *20*
  purification of, *20*
Human filiariasis, skin test for, *33*
  serum albumin, antigenicity of peptic proteolytic products of, *11*
Hycodan in control of coughing, *61*

I

Infections of lung, penicillin and hydrogen peroxide aerosol in, *61*
Inflammation, chemical factors in, *60*
Inhibiting antibody, in various allergies, *13*
Insect bites, desensitization to, *44*
Intracardiac pressure, simultaneously recorded with intrathoracic pressure, *2*
Intraderm, introduction of allergens into skin with, *31*
Intrathoracic pressure, simultaneously recorded with right intracardiac pressure, *2*
Iodized oil, death following bronchographic use of, *26*
Iritis, allergy as etiologic factor in, *54*

K

"Khamseen cold," not allergic disease, *53*

L

L. Casei factor (folic acid), hematopoietic factor in liver sensitive patients, *67*
Lemon grass oil, as primary irritant, *40*
Light hypersensitivity, passive transfer of, *27*
Liver sensitivity, folic acid therapy as substitute in, *67*
Loeffler's syndrome, case report of, *44*
  effect of epinephrine on, 25
  experimentally produced in rabbits, *58*
  nature of, *58*
  post-mortem studies in, *13*
  relationship to pulmonary ascariasis, of, *49*
Lymphoid hypoplasia due to pyridoxine deficiency, *60*

M

Ménière's syndrome, histamine phosphate in treatment of, *9*
Migraine, dihydroergotamine in treatment of, *55*
Mites (acarina) as cause of asthma and eosinophilia, *61*

N

Nasal mucosa, effect of drugs on, *64*
  irritant qualities of penicillin on, *6*
  penicillin absorption from, *6*
  sulfonamide compounds effect on, *30*
Negative pressure, penicillin aerosol in treatment of sinusitis, *64*
Neuritis, sulfonamide therapy, as cause of, *22*

P

Patch testing, certain statistical considerations in, *5, 17*
Penicillin, absorption from alimentary canal of, *6*
    nose of, *6*
  aerosol treatment of sinusitis with, *30*
  allergic reactions from, *4, 39*
Penicillin—Cont'd
  as cause of cheilitis, *29*
    contact dermatitis, *28*
    delayed serum sickness, *56*
    dermographia, *64*
    ocular dermatitis, *51*
    urticaria, *28*
  epidermal sensitivity to, *63*
  in treatment of bronchiectasis, *37*
  irritation of nasal mucosa by, *6*
  localized sensitivity to, *63*
  patch testing with, *30*
  reaction simulating serum sickness from, *10, 57*
  therapy, reactions from, *39*
  treatment of sinusitis with, *64*
Peptone shock, thrombopenia in, *34*
Perfume, as cause of urticaria, *17*
Periarteritis nodosa, *22, 31*
  clinical and pathological findings in, *55*
  early lesions in, *55*
  ecsinophilia in diagnosis of, *1*
  iodine, as cause of, *19*
  ophthalmoscopic findings in, *54*
Pertussis antibodies, placental transfer of, *36*
  immunization during pregnancy, *36*
Photosensitization as result of parsnip contact, *28*
Plasma, passive transfer of sensitivity to, *21*
  sensitivity to constituents of, *21*
Plastics, as cause of dermatitis, *4*
Poison ivy antigens, destruction by tyrosinase, *17*
  dermatitis, chloroamide ointment in prevention of, *52*
  extract, biological assay of, *62*
Pollen antigens, review of literature on, *49*
  therapy, coseasonal method, *3*
Post-nasal drip, causes of, *42*
Precipitin formation to cottonseed and castor beans, *47*
  production in chickens, *47*
  test in tuberculosis, *9*
Privine, pharmacologic studies of, *6*
Protein complexes, conversion of non-precipitating types to precipitating types, *11*
  repletion, influence on antibody production, *60*
  specific precipitation of, *12*
Pruritis, effect of theophylline ethylenediamine on, *40*
Pulmonary acariasis, occurrence of, *49*
  infiltrations, in rabbits, *58*
Pyribenzamine, comparison with benadryl in histamine and anaphylactic shock of, *53*
  effect on dermographism, *63*
    smooth muscle actions of histamine, pilocarpine, and epinephrine, *70*
  toxicity and histamine antagonism of, *71*
  use in pruritic conditions of, *51*
Pyridoxin deficiency, lymphoid hypoplasia in, *60*

R

Ragweed pollen, sensitization of guinea pigs with, *70*
rabbits with, *70*
Resins, synthetic as cause of dermatitis, *4*
Rheumatic fever, role of sensitivity in, *46*
Rubber dermatitis, *18*

S

Scleroderma, benadryl in treatment of, *62*
Serum sickness, procaine in treatment of, *41*
simulated by penicillin reactions, *56*
Silicosis, eosinophilia in, *24*
Sinusitis, effect of penicillin therapy on, *64*
Skin, histamine content of, *52*
testing for human filiariasis, *33*
with coccidiodin, *32*
Status asthmaticus, bronchoscopic findings in, *27*
Streptomycin, in aerosol treatment of bronchiectasis, *25*
allergic manifestations to, *8*
reactions following use of, *69*
Sulfathiazole, fixed bullous eruption due to, *29*
Sulfonamides, polyneuritis caused by, *22*
effects on nasal mucous membranes of, *30*
pathogenesis of histopathologic changes in hypersensitivity to, *68*
pathology of hypersensitivity to, *69*
sensitivity to, *44*
sensitization by local application of, *18*
thrombocytopenic purpura from, *9*

T

Theophylline ethylenediamine, as antipruritic agent, *40*
Thiamine chloride, sensitivity to, *67*
death following intravenous injection of, *43*
Thioglycolic acid poisoning, from "cold wave" process, *56*
Thiouracil, reactions to, *9*
Transfusion accident caused by serum incompatibility, *21*
Trichina, active and passive immunization to, *48*
Trinitrotoluene, urticaria from, *29*
Tropical eosinophilia, diagnosis and treatment of, *3, 50*
occurrence of, *19*
wheezing in, *3*
Trypsin shock significance of histamine in, *71*
Tuberculin allergy, relationship to active tuberculosis of, *45*
prognosis and skin sensitivity to, *44*
test, transcutaneous, *32*
Tuberculo-bacillary allergy, dye spread in skin of guinea pigs with, *8*
Tuberculosis, precipitin test in, *9*
role of allergy and immunity in, *45*
Typhus vaccine, allergenic properties of, *65, 66*

U

Urticaria, perfume inhalation as cause of, *17*
benadryl in the treatment of, *15, 16*
factitia, effect of pyribenzamine in, *63*
light sensitivity as cause of, *38, 40*
penicillin as cause of, *28*
trinitrotoluene as cause of, *29*

V

Vaccines prepared from embryonic tissues of developing chicks, allergenic and anaphylactic properties of, *65, 66*
Vasomotor rhinitis, X-ray treatment of, *42*
Vital capacity, influence of ephedrine on, *26*
Volatile oils, expectorant action of, *50*
